B.Tech. 2nd Semester Examination, May-2016

BASIC OF ELECTRONICS

Paper-ECE-101-F

Common for all Branches

| Tim | e allo | wed: 3 hours] [Maximum marks: 1 | [Maximum marks : 100 | | |
|--|----------------|--|----------------------|--|--|
| Note: Attempt any five questions. Question No. 1 is compulsory. All questions carry equal marks. | | | | | |
| 1. | (a) | Define fermi level. | 3 | | |
| | (b) | List out the different types of oscillators. | 3 | | |
| | (c) | Define slew rate. | 3 | | |
| | (d) | What is -ve feedback? Give advantages for it. | 3 | | |
| | (e) | $Convert (B2A4)_{16} = ()_8$ | 3 | | |
| | (f) | Define LED. | 2 | | |
| | (g) | List out characteristics of an Ideal Op-Amp. | 3 | | |
| 2. | (a) | Differentiate between drift and diffusion curre | nt. 5 | | |
| | (b) | Discuss the theory of P-N Junction diode a compare it with an ideal characteristics. | nd 15 | | |
| 3. | (a) | Explain the concept of Cascaded Amplifier. Deri the expression for the gain. | ive 10 | | |
| | (b) | Discuss effect of -ve feedback on amplifier ga and bandwidth. | ain 10 | | |
| 4. | (a) | Discuss the Bharkhausen criteria for sustain oscillations with an example. | ed 8 | | |
| | (b) | Explain the working of RC phase shift oscillar with neat diagram. | tor 12 | | |
| 240 | 0 04- F | P-2-Q-9(16) [P.T. | O. | | |

| 5. | (a) | Discuss Op-Amp as Differentiator and integrator | | |
|-----------|-----|---|---------|--|
| - | | circuit. | 10 | |
| | (b) | Describe working principle of Invertor | and its | |

- 6. (a) Differentiate between combinational circuits and sequential circuits.
 - (b) Convert the following:
 - (i) (4 CB4.01)₁₆ into octal
 - (ii) (432.23)₈ into Decimal
 - (iii) (1094.45)₁₀ into Hexadecimal
 - (iv) (1111101), in decimal.

12

7. Write down short note on:

10×2

- (i) Cathode Ray Oscilloscope (CRO)
- (ii) Digital Multimeter.
- 8. What is LCD? Discuss the different types of LCD display. List out the advantage and disadvantage of LCD display.
- **9.** Write down short note on:

10×2

- (a) Seven segment display.
- (b) Construction and working of LED's.
